# Shreyash Pawar

9420784253 shreyashrpawar28@gmail.com shreyash.ilusion.io

## Education

**University of Mumbai** **Nov 2022 – Jun 2025**
*Bachelor of Engineering in Information Technology* *Thane, Maharashtra*

**Puranmal Lahoti Government Polytechnic** **Aug 2019 – Jul 2022**
*Diploma in Information Technology* *Latur, Maharashtra*

## Experience

**Ilusion Vault** **Apr 2026 – Current**
*Creator and Developer (Self-Employed)* *Remote*

- Built a client-side zero-knowledge encryption flow (Web Crypto API + R2/S3 pre-signed uploads) ensuring the server never accesses plaintext data.
- Engineered a high-performance encryption pipeline with Web Workers and key-caching, bulk-upload.
- Designed and implemented a modern, premium UI (glass-morphism dashboard, responsive Vue components, vue-sonner toasts) that showcases encrypted file sharing and folder permissions.
- Strengthened overall security by adding a strict Content-Security-Policy, extra HTTP headers, and front-end sanitization (DOMPurify) while maintaining full SEO compliance.

**SecretAlign** **Mar 2025 – May 2025**
*Laravel Developer (Contract)* *Remote*

- Diagnosed and resolved production bugs across multiple Laravel modules, improving application stability and user experience.
- Created and maintained technical documentation for APIs, modules, and workflows to support onboarding and long-term maintainability.
- Refactored backend code to improve performance, readability, and adherence to Laravel best practices.
- Developed and integrated new backend features based on evolving product requirements.

**Yantravyuh LLP** **Jun 2024 – Feb 2025**
*Full Stack Developer Intern* *Thane, Maharashtra*

- Enhanced frontend components and layouts using Vue.js to improve usability and responsiveness.
- Delivered backend features and bug fixes in PHP/Laravel to ensure reliable end-to-end platform functionality.
- Refactored Laravel and Vue.js components to improve performance, scalability, and code maintainability.
- Prepared clear technical documentation to support development workflows and cross-team collaboration.

## Projects

**Kesari Awayddings** | *Vue.js, Laravel, MySQL*

- Implemented a complete booking workflow for destination weddings across India, including venue discovery, guest management, menu selection, and payment processing.

**LongLif- Personal AI Consultant** | *Python, Colab, Hugging-Face, modal, vercel, NextJS*

- Auto-tuned the quen 7B AI model for managing the time and emotions of a individual on google colab hosting it on a modal cloud hosting.
- Called the exposed API of the model from a React frontend for better integration with the consultant

**Mock Backend APIs Platform** | *Next.js, Django, MySQL*

- Built a customizable mock server platform allowing dynamic API route creation, configurable request types, and user-defined responses for rapid frontend development.

## Technical Skills

**Languages**: Java, Python, JavaScript, PHP, SQL, HTML, CSS
**Core CS**: Data Structures and Algorithms, Object-Oriented Programming, OS and Networking Basics
**Frameworks**: Laravel, Next.js, React, Node.js, Django
**Tools & Platforms**: Linux, Docker, Kubernetes, Git, REST APIs, WebSockets, Google Cloud Platform
**Databases**: MySQL, MongoDB
**Problem Solving**: Solved 200+ DSA problems on LeetCode and GeeksforGeeks using Java and Python
